PROJECT OF THE YEAR AWARDS

For project nominations, include detailed information on the project results, any unique aspects of the project, budget information and funding sources, grants, partnerships, schedule data, and high resolution photos. Attachments such as photos, charts, graphics, are strongly encouraged.

- Determination of the award recipients will depend (in large part) on the information provided in the narrative section of the nomination. Emphasis will be on achievement and results, not simply effort.

Technical and Management Innovation Award (has equivalent National Award)

This award is to recognize an individual, team, or organization for the development and implementation of a creative idea, device, process or system that enhances the goals of public works in serving the public and protecting the environment. The award is open to anyone actively involved in the public works profession.

The following criteria are used in the selection process:

- Each nominated innovation is judged on its effect upon the provision of goods and services to the public. It can be an innovation in the process itself or in the materials, design, equipment, administration, management training, procurement, etc., that improves, informs, or educates the delivery of public services and improves the quality of life. A project can be nominated for its innovative concepts or methods.
- The innovation must be a proven success. It must have had a positive and important effect on, improve the quality of, or reduce the cost of the delivery of public works goods and services. Innovation is the implementation of new methods and new technologies. It is not merely an idea that has merit and may be successful in the future.
- The innovation must be a significant advance, not just a natural evolution of existing methods, common sense or good practice.
- The innovation must be documented and presentable. Innovators, their teams and/or their agencies/employers must disclose sufficient information about the innovation to allow documentation for the Awards Committee.

Note: There are other awards that are given at the national level, but not within the Georgia Chapter. Many of these awards are for individual service to APWA at the national level.
